TITLE: Computer system for online search of educational materials, maintains subject matter common to attributes of objects and standard setting regimes using master terms used for defining attributes

Basic Abstract Text (1):

NOVELTY - The computer system comprises three tables. The normalization table includes manually developed master list of terms that collectively map subject matter common to attributes of objects in an object catalog and standard-setting regime. The primary and secondary tables include listings of attributes of the objects and standard-setting regimes respectively, where the attributes are defined by the master list terms.
